

Welcome to Absolutely Clean

{{commercial}}

Absolutely Clean is a conglomeration of moms, teachers, coaches, and active members of the community. We are people, just like you, who want to have clean houses and more time! At Absolutely Clean, we provide you with both of these valuable scarcities, and with the most personal of touches!

Feel free to order the organic products that Absolutely Clean professionals use in your home!

Absolutely Clean was started in 2001, by **Stephanie Nesseth**, with the desire to have flexibility for her family. Her oldest son was surviving cancer and family needed to be the first priority.

In growing the business, Stephanie realized that there were other people out there who wanted the same flexibility. In hiring people with the same needs we also found a desire to use organic products. One of our moms has a daughter with autism and a former employee has Lupus. We have slowly switched to mostly organic for the health of all our families. We are a custom service: while we prefer organic and find the quality better, we will use your products if that is part of your custom clean.

We are all people you would invite into your home on any day - not just cleaning day!
